**PURCHASE at VOLUME DISCOUNTS**

\* OUR TREES ARE GRAFTED NOT GROWN FROM SEED--SEED GROWN TREES TAKE LONG TO FRUIT AND TAKES YEARS TO FIND OUT IF ANY GOOD AT ALL (BUY GRAFTED TREES)

WOLFRATH'S special root stocks are important for your future. We suggest proper mixture for quick fruiting, hardiness and tree size.

**IMPORTANT**

**SEMI**---Our special semi root stock offers quick fruiting trees plenty tall 12-18' so fencing may be removed in 3 to 4 years. It is also very hardy and productive. (DO NOT PLANT DWARF PLASTIC POTTED TREES FOR DEER)  
**STANDARD**---This hardy root stock grows a somewhat larger tree however may not fruit as early as the special SEMI root stock. Bob suggests the proper mix for your special area. BOB can help you pick what is best for mixture, hardiness, tree height, quick fruiting, proper pdination and best drop times to keep deer coming to your site. May mix any variety & size for volume discount
